1. The SCHMIIDITZ (M 52/E 12) airfield has been unoccupied for fifteen months. There were no sentries. The flight control station on the southern edge was intact. No intermediate landings have been made at the field for a long time.
2. No Soviet troops were quartered in the SCHMIIDITZ station. The people-owned ~~Maschinen-~~ und Apparatebau Fir' (Construction of Machines and Apparatuses) was housed in the buildings of the former brickyard at the southeastern corner of the field. Soviet Air Force soldiers wearing blue epaulets were occasionally observed there.
